GROOVE BAND

in the net

www.ronyb-mallorca.com

After nearly 40 years of experience with performances all over Europe for high level corporate events, exclusive private parties, concerts, and for people like you and me, as session musician for VIP artists or with one of my bands, I learned that one of the most important issues in the event business is:

BE FLEXIBLE!

And this starts with the inquiry . . . not all artists requested from clients are available for the specific day or time to be part of my band. Therefore I need a lot of alternatives to be able to offer the best solution for any event. This is the main reason why I changed from a fix band to an open concept project. By the way . . . this way also you, the client, have the possibility to select from various artists your favourites (if available 😊).
